A: A TAAS-Membership could be for an individual or for a group so long as the product in this case, your CD is composed by the group. If you are both in a band and also a single artist with CD's we recommend that you have dual memberships. This will allow you to market the two separate and better. The program only allows for one Bio for each membership. As a band, you'll want to emphasize the bands strengths and as single artists you will want to emphasize individual talents.
